

Welcome to the first edition of the **CCNE News Beat**. Over the coming year we will bring you news on upcoming programmes/events, conferences and other areas of interest, including updates on our new Classroom Management System (CMS). If you have any items of interest that **YOU** would like to share with your colleagues, we would be delighted to include them in our 'News Beat'. Please send them to admin.ccne@olhc.ie

Who We Are and What We do

The CCNE is located in Children's Health Ireland (CHI). Our team includes staff from CHI at Crumlin, Temple Street and Tallaght and we engage and collaborate with many stakeholders and subject matter experts in children's nursing. We are governed by a Board of Management, including representatives from CHI and Nursing & Midwifery Planning and Development Units.

We develop & deliver continuing education, training & professional development programmes across the 3 sites and nationally.

Programmes are open to all registered nurses, midwives, health & social care staff and others caring for children with healthcare needs.

CCNE staff who attended the CMS Training Day in May in the Centre for L&D in St. James's Hospital (Front L-R): Shenda Matthews, CPD Coordinator, CHI Temple Street, Margaret McManus, Administration Manager, CHI Crumlin; (Back L-R) Naomi Bartley, A/Director, CHI Crumlin, Eleanor Norman, Administrator, CHI Crumlin, Anne Jesudason, Project Manager, ONMSD CMS, Mary O'Toole, Learning Technologist, CHI Crumlin

If you have a specific education/training need or would like to develop a programme with the CCNE, please contact the CCNE for further information

E-Learning Programme on HSEland Immunisation Foundation Programme

This new 60 minute programme on HSEland is aimed at healthcare professionals who have a role in promoting and providing information on immunisations. For those new to immunisation, it explains the how and why of immunisation. For those experienced in immunisation, this programme serves as an excellent refresher.

Learning Technology Updates

The CCNE is delighted to introduce a new online booking process in the form of a **Classroom Management System (CMS)**. It will 'go-live' on HSEland in Autumn 2019. The CMS allows you to:

- Review CCNE programmes, dates, times and locations
- Enrol yourself onto programmes
- Access programme resources
- Review your individual 'Learning Record' which automatically updates as you complete each programme. This provides you with an automated digital log of your completed programmes.

We will be conducting an awareness and support campaign in autumn. Further updates to follow.

Teaching with WiFi

Wi-Fi is now available in the CCNE (CHI at Crumlin) for teaching and learning purposes. Access details are posted on the lecture room walls. Demonstrations were conducted in spring 2019 and will be repeated on an ongoing basis. For further details, contact mary.otoole@olhc.ie
