There are no specific physiological assessment tools. Suitable for children <3yrs (excluding neonates). Suitable for neonates. Suitable for preterm neonates.

### Self Report Tools
- **Children and Young People**
  - Peri-procedural Pain
    - FACES (Wong Baker)
    - Poker Chip Tool
    - Word Descriptor Scale
  - Post-operative Pain
    - Colour Analogue Scale
    - Faces Pain Scale (FPS by item)
    - OUCHER (outpatient & ambulatory)
    - Sheffield Children’s Hospital Facial Expression Scale
    - Visual Analogue Scale (self-rated)
    - Word Graphic Rating Scale
  - Other Settings
    - CHEOPS
    - COMFORT
    - FLACC (Faces, Legs, Activity, Cry, Consolability)

### Behavioural Tools
- **Children <3yrs & Neonates**
  - Peri-procedural Pain
    - Acute Pain in A&E: Colour Analogue Scale
    - Chedoke-McMaster Paediatric Pain Management Sheet
  - Post-operative Pain
    - COMFORT
    - Nepean NICU Pain Assessment Tool (NNICUPAT)
    - Premature Infant Pain Profile (PIPP)
    - University of Wisconsin Pain Scale
  - Other Settings
    - CRIES
    - DCHPT
    - NAPI (Nursing Assessment of Pain Intensity)
    - Neonatal Infant Pain Scale (NIPS)
    - Objective Pain Scale (OPS)
    - Pain Rating Scale
    - Pain Assessment Tool (PAT)
    - Post-operative Pain Scale (POST)
    - Toddler Preschool Post-operative Pain Scale

### Physiological Tools
- **Children (>3yrs) without Cognitive Impairment**
  - Peri-procedural Pain
    - FLACC
    - Neonatal Infant Pain Scale (NIPS)
    - Pain Rating Scale
    - Pain Assessment Tool (PAT)
  - Post-operative Pain
    - CHEOPS
    - COMFORT
    - FLACC
    - NAPI
    - Neonatal Infant Pain Scale (NIPS)
    - Objective Pain Scale (OPS)
    - Pain Rating Scale
    - Pain Assessment Tool (PAT)
    - Post-operative Pain Scale (POST)
    - Toddler Preschool Post-operative Pain Scale

### Other Settings
- **Children with Cognitive Impairment**
  - Peri-procedural Pain
    - FLACC
    - Neonatal Infant Pain Scale (NIPS)
    - Pain Rating Scale
    - Pain Assessment Tool (PAT)
  - Post-operative Pain
    - CHEOPS
    - COMFORT
    - FLACC
    - NAPI
    - Neonatal Infant Pain Scale (NIPS)
    - Objective Pain Scale (OPS)
    - Pain Rating Scale
    - Pain Assessment Tool (PAT)
    - Post-operative Pain Scale (POST)
    - Toddler Preschool Post-operative Pain Scale
